Summary

An aspiring Web Developer who has worked on the Front-End aspect of Web Applications. I have learned various technologies such as HTML5, CSS3, JavaScript, jQuery, React.js, Redux. Experienced in designing, developing and testing multiple web-based applications, incorporating several technologies. Pay special attention to user requirements and feedback provided based on User Experience (UX).

I'm a motivated individual committed to learn and write codes that work. I continue learning Application Programming and User Interface Design to improve my Front-End Development skills. I can work effectively in a team environment as well as independently on my own.

Pursuing a professional career in a leading computer company.

Experience

Frontend Developer

Bulp

Mar 2020 - Apr 2021 (1 year 2 months)
